Permit is hereby granted to the above designated permittee(s) to open and operate the mine and mine refuse area referred to in the above subject heading, and described as follows:

Surface mining operations consisting of 579 acres located in Sections 21, 26, 27, 28, 33, T.6S., R.2W., Perry County.

All effected surface runoff is to be intercepted by a diversion ditch and routed into a final cut lake located in W.1/2 of Section 28, T.6S. R.2W. This lake is also used as a water source for the preparation plant.

This Operating Permit expires on February 28, 1982.

This Permit is issued subject to the following Special Condition(s). If such Special Condition(s) require(s) additional or revised facilities, satisfactory engineering plan documents must be submitted to this Agency for review and approval for issuance of a Supplemental Permit.

Special Condition #1: The diversion ditches shall be constructed and ready for operation prior to the start of mining activity.

Special Condition #2: At such time as runoff is collected in the sedimentation pond, a sample shall be collected and analyzed, with the results sent to this Agency to show compliance with the applicable effluent and water quality standards. Should additional treatment be necessary to meet these standards, a Supplemental Permit must be obtained. Discharge from this pond is not allowed unless applicable effluent and water quality standards are met.

This permit is issued in accordance with the Illinois Environmental Protection Act of 1970, the Chapter 3, Water Pollution Regulations and the Chapter 4, Mine Related Pollution Regulations adopted pursuant thereto by the Illinois Pollution Control Board. THE STANDARD CONDITIONS OF ISSUANCE INDICATED ON THE ATTACHMENT TO THIS PERMIT (PAGE 1a) MUST BE COMPLIED WITH IN FULL. READ ALL CONDITIONS CAREFULLY.
